Rating	Meaning
	Comprehensive records and evidence available aligns with data submitted
	Some records and evidence available and aligns with data submitted
	No records available or records not aligned to data submitted

Every year the Co-operative undertakes on-farm verification of information relating to your farm. This occurs at your Farm Dairy Assessment and covers:

- Verification of the information you provide to the Co-op through your Farm Dairy Records at the end of last season. This information is important to your Co-op for many reasons, but most importantly it supports Fonterra's progress against emissions targets and validates Fonterra's claims in market.

Next Steps

- If each section has been **verified complete**, no further action is required.
- Please read the information provided above if any of the sections have been **verified incomplete** and you would like to know what to do to meet these requirements.
- Re-verifications must be completed by 31st May to be eligible for The Co-operative Difference.
- Achievement under The Co-operative Difference will be confirmed during August 2027, on the basis that you submit your Carbon Removals declaration online (due 31 May 2027) and accurate Full Farm Dairy Records have been submitted online (due 30 June 2027), along with ensuring your farm does not become ineligible for The Co-operative Difference through receiving a performance management notice of breach during the season.
- If you have any questions specific to this assessment, please reach out to your QCONZ assessor directly and they'll be happy to help. For anything else, please contact our Farmer Support Team on **0800 65 65 68**.
- You are able to raise a formal dispute with the Co-operative in accordance with the Fonterra Farmers' Terms of Supply. Email the details of your dispute to dispute@fonterra.com

Note: The verifications provided in this document do not indicate or imply, directly or indirectly, compliance with any other laws, codes, standards, regulations, and/or policies. We make no representations or warranties as to whether information provided in this verification is suitable for any purpose other than for verifying your data to support Fonterra's market claims.

Fonterra disclaims all liability for any reliance on this verification document for purposes.

UPDATES TO THE CO-OPERATIVE DIFFERENCE

We've simplified what's required to achieve the Co-operative Difference this season
