Hi Genevieve

That's not the interpretation I have after reading condition 5a. There is no provision for a demarcation fence. Happy to discuss.

Ngā mihi | Kind regards,
Kerry

Hi Kerry

The consent condition specifies that a fencing plan be provided showing how the condition will be achieved. There is no requirement for the fencing to be placed on the covenant boundary and the covenant boundary will be identified by the demarcation fencing.

Fencing of bush and riparian areas

a. A permanent ungated continuous stock-proof fence, (minimum seven wire post and batten fence with no gates) capable of preventing browsing or other damage by farmed animals, shall be constructed outside of the bush and riparian areas to be protected on Lots 2, 4, 5, 6 and 7 (Areas CP- CW, CO, CX- CZ, Z) and maintained. How this will be achieved shall be demonstrated by the provision of a fencing plan, for the certification of the Team Leader- North- West Monitoring.

If the fencing is constructed after the survey title plan has been approved under section 223, a certificate from a licensed cadastral surveyor shall be provided to confirm that the fencing of these areas is located on the covenant boundary.

A further point to note is that although we have shown stock proof fencing along the western boundary this won't be required as the adjoining bush block is a covenant so is already fenced.

Kind regards
Genevieve

Hi Both

The covenant doesn't align necessary with the required fencing.

Condition 5a is explicit in the fence being stock-proof and to a given standard; there is no ability to have a demarcation fence

They need to amend the fencing plan; or apply for a variation to the consent

Hi Kerry
Wildlands did the ecology peer review for this (Tim).

In terms of the landscape and planting plan – this is for urban design to approve, it is a landscape condition.

In terms of the fencing plan – there appears an area of SEA that is demarcated outside the stock proof fence in an area where there will be stock?

If they are wanting this approved – Rue could you please look at the plan side. Kerry, you will need to get NZBio or someone out to check it is where they say.

Good morning Simon

Further to this request I sent through. I have asked Genevieve whether the fencing plan has been sent through for assessment also. I presume so, but will confirm with you once I hear back.

Many thanks
Kerry

Hi Simon

Are you able to assign the attached planting material for assessment please?

Many thanks
Kerry

Hi Kerry,

I'm unclear as to who needs to approve these plans – is it you or Adam?

In terms of Conditions 5(a) and 5(e) of the Decision, please see the attached fencing, Landscape Plan & Planting Management Programme report for approval.

I have allocated the task to you in SAP – please let me know if this needs changing

Kind regards
Cheryl
